

Hey There Ika, I know you don't know me and probably never will but I wanted to say I loved your art when I was younger & it was heartbreaking to see you disappear. And i hope this message finds you well in the future.

P.s if you ever play geometry dash give me a follow @Soniccyclone10

Also if there are any others reading this here and you want to preserve another artist's lost media, These are the steps i took to find this media:

- 1. Ask DeepSeek (Or any otr GPT) for:**
 - a. Do you know [Artist Name]
 - b. And ask for tips to preserve their art
 - c. Maybe engage the community for help like **Reddit**
- 2. Use retrieval tools:**
 - a. **Wayback Machine /**
 - b. **Deep Search for Ghosts of Deleted Content**
 - i. Google's "Cached" Pages (Even If Links Are Dead)
 - ii. Alternative Search Engines
 - iii. Archive.today

And well yeah, i'm sure there are even more methods but these are the ones that lead to my success.
